Course Information

7:30 AM - 11:30 AM

Instructor: Kile Unterzuber, Protective Resources

Basics of Fire Alarm Installation: NEC and National Fire Alarm Code

An overview of the NEC and NFPA 72 requirements for the installation of power-limited fire alarm systems. Emphasis is placed on the newer requirements of NFPA 72 that may be unfamiliar to licensees. This course, when offered during 2021-2022, meets the requirements of the North Carolina Board of Examiners of Electrical Contractors for 4 contact hours of continuing education credit. This course is not sponsored by the Board.

7:30 AM - 9:30 AM

Instructor: John Kelley, Digital Watchdog

IP Video Management Simplified # ASLB-15-999

Course is to educate the market on the benefits of deploying an IP Video Management System. IP Video is different than analog in a lot of ways. Learn how to deploy, offer and set-up an IP-VMA solution. Attendees will be proficient in installing and operating an IP Video Management System.

9:30 AM - 11:30 AM

Instructor: Jack Dix, Alarm.com

Alarm.com- Beyond Security

Stand out from the competition and drive more RMR from your customers with Alarm.com's smart security solutions that now extend beyond the home. Join us to learn more about exclusive, award winning products that present prime new sale and upsell opportunities, including: Flex IO, Connected Car, Smart Water Valve+Meter, Alarm.com Wellness. You'll discover primary and novel use cases for each product, so you're well equipped to promote these differentiated solutions to new and existing customers.

Alarm.com for Business Overview

This course covers all things Alarm.com commercial & how a single app can control intrusion, access control, video, and energy management. Discover the fundamental differences between the Alarm.com Commercial and Residential service plans and all the features that comprise ADC for Business. Also preview new products & services available and what's coming soon!
